Tiny little fawn Will and big ravenstag Hannibal

The little fawn was starving. It was the second day after his father had dissapeared inside the metalic thing the men used to move from place to place. His father had told him about hunters. They could captured them in order to fill their zoo. Stagpeople were scarse and an oddity.

People pay handsomely to see them in person. Will knew his father would be alive but in a cristal cage for the rest of his life. They had lost so many of their piers that way. The small fawn cried in anguish and hunger. The night would be cold and lonely

Tired from both he fall asleep only to wake up to sounds of small branches being broken by a big animal getting closer. The child was hidden behing the roots of an old tree. It was a huge black ravenstag. Human and stagpeople fear them. Ravenstag people were dangerous and feast

On the flesh of humans and stagpeople whenever they could. They were monsters. Will closed his eyes. He started to trembled at the sound of the big monster approaching. When he felt a cold hand on his shoulder he started wailing in terror

The monster picked him up in his arms and started to walk towards the river. Will was crying. The minutes went by turning his cries into whimpers. The small fawn dared to look at the ravenstag face. He looked down at him. Will stopped crying. The ravenstag was

Handsome?. His red eyes and soft smile made the small fawn feel a bit of calm. Will was in a trance still when the ravenstag lowered him to the cold water and started to clean his body from leaves and branches taking special care of his small

Horns. Will giggled. They feel sensitive to the touch. The ravenstag smiled at him and asked in a deep accented voice.R:"What's your name, little one?". W:" Will. What's yours? Are you going to eat me?". The ravenstag smiled at him and looked away for a moment.R:"Hannibal. No. I wont

Not today" . Will looked at him puzzled because of the answer. Will hissed when the water touched a cut on his arm. The monster went down and licked it. The cut started to heal. Will was in shock. The ravenstag licked the blood on his lips.R:"My saliva can heal. Are you hungry, Will?"

the ravenstag took care of the small fawn from then on.Will was a bit confused at first thinking he was probably trying to fatten him up . but he was so thoughful and took good care of Will it was difficult for the child to grasp the idea of Hannibal devouring him

Will loved it when the older man brushed his fur complimenting Will's fawn little marks. Will blushed at it. Hannibal teached Will how to hunt small prey such as rabbits and birds. He never hunt stagpeople in front of the small fawn but there were nights when the monster would

Come back with blood on his fangs and under his sharp nails. Will wouldn't ask but knew by the smell it was human blood. Maybe some unfortunate people hiking or camping in the forbidden areas or someone stupid enough to try to film a glimpse of the ravenstag

Those nights Hannibal would clean himself before cuddling with Will in the floor of a dark cave. Will would hug him until morning came unafraid by the monster he had started to call his family in his mind

Time passed. Months. Years. And finally the small fawn was a beautiful young stag. Their eyes would roam their bodies and faces at night. No words but heated gazes. One night Will instincts made his heart beat fast. They were cuddling when the young stag pressed

His body into the older stag's. Looking for friction. Hannibal woke up with a gasp. Will's sex was hard under his fur and brushed again and again against the ravenstag's. Hannibal snarled and took him by the hips. Nails digging into soft skin and fur. The weight of the older stag

An unexpected pleasure but Will needed more. He whimpered. Hannibal pressed his member between soft buttocks and tail. Hannibal took the small tail. A wetness was coming out of the stag pink entrance.

Will moaned wantonly.The ravenstag member was breaching him .Slowly penetrating him. The young stag whimpered in pleasure. His nails digging into the soft furs that was their shared bed on cold nights. The ravestag stood still for a moment. Will felt a wet kiss with a promise of fangs

On his nape. What could meant Danger in another case, meant love in this moment. Will move his face and Hannibal licked at his lips. Will kissed him back. Small licks and sucking tongues. It all stopped when the ravestag started pistoning his hips.

Minutes later the young stag was coming clenching around the ravenstag member. Hannibal picked up his speed . With a strong thrust he came inside the younger stag. Panting still they both kissed for a couple of minutes. It was the first night of many. Both stags had found

Family and love in unexpected places. 💜

Monster Charmont/Wizard Gellert

#FantasticBeasts3 Gellert/Charmont

The wizard and the rest of ministers went down the stairs of the dungeon. It was dark. The only source of light was the creature inside the magic cell. To the naked eye it looked like a young man in the middle of a dark room

Surrounded by half the ministry of Magic. There was an invisible barrier. The monster looked at them. Gellert was halflistening to the minister telling him to take the creature away. It was one of a kind.unique and the only one left known to the wizard word. Dangerous.

Gellert got closer. The creature was beautiful. It looked like a man in his 20s.Its skin glowed in the dark of the chamber. Its eyes were red. Small sharp fangs protuded from a sensual mouth while it hissed at the older man approaching.

Gellert touched the barrier and it was like a bubble which receed to let him in. The Wizard lift his wand casting a protection spell. He could touch the creature but it couldnt harm him. The beautiful monster step closer and hissed in warning. It opened its mouth wide. Jaws

Parting in 3 parts full of sharp fangs. Deadly and gorgeous , thought the man. He got in front of the creature who was trembling. Waiting to chomp his head off as it had done to many confident wizards before. Gellert put a hand on its chest. The creature trembled unable to move

The man's hand went up carressing the pale column of the creature's neck. Its jaws close a bit. Gellert got hold of the monster hair and pulled making it look up at him. Eye to eye. The man smirked and whispered at mere inches of those deadly fangs:"Breathtaking.".

His wand sparked for a moment. He cast a spell of privacy. Noone could see or hear what was happening inside the barrier. All present started whispering in fear and confusion until one of them said unless the spell was broken by Gellert or his death they should wait. Gellert pushed

The creatures carefully onto the dark cold floor. It went down slowly but still hissing at the man until its head and back touched the cold surface. G smelled the creature hair and his nose brushed its eyebrow. His other hand send the wand to the air. It was floating waiting to the

Man's command. With his free hand G carressed from pale clavices to trembling chest. He played with the creature's nipples until they got hard. Then went down to its belly. The monster started panting. His mouth got back to its human form showing lovely full lips.His eyes closed

In pleasure. One it had never experienced before. G touched its hard sex. Carresing in his palm a very human like member.The beautiful monster arched its back and moaned. G freed its hair. He took a nipple in his mouth alternating between kisses and sucking

Until the creature was a trembling mess. When G took the other nipple he noticed a wetness coming from the creature entrance. He knew it was time to cast a strong spell on the creature. It dangerous and violent moods would be calmed by a particular liquid. He smiled

The wand in the air move and the wizard pants were undone. The man kissed the creature's forehead. It arched and whimpered in pleasure. G was breaching him. The spell would protect him from any harm to his body from inside the monster and it would allowed his magical seed to get

Absorbed by the creature's body. It would be like a calming spell everytime the man took the beautiful monster. It would need his seed to calm down and most importantly it would crave it. G kept pistoning his hips until he watched the monster come undone under him

With the sparkly monster seed over its stomach G only needed 2 strong thrusts to come inside its warm body. G was barely panting with the exertion. He kissed the creature on its lips and rise his hand to retrieve his wand. The wand went down to the man's hand. G cast a spell and

His body and clothes were imaculate and clean so it was the creature on the floor. No hints of their intercourse. The older man took the monster in his arms bridal style. The creature opened its eyes to revealed gorgeous blue eyes. It looked at G for a moment and then

Fell asleep cuddling against the man's neck. G would take the monster to his private mansion. He looked at its innocent human face. It was indeed as its name : "Charming death". The man tought about a proper name. "Charmont" would be a perfect name for his new pet💜

Plaything. 5 to 6 Mads characters / 1 Will

Plaything AU/ 5 to 6 men/ 1 boy. Omegaverse/afab body Will

Hannibal approached the boy. He looked like he was 15 or 16 but he was no longer available for adoption. Understandable he works at the place he knew as his only home since he was 5 according to his papers. Nigel looked at them from

Inside the bentley. He understood now why Hannibal was so enamoured by the omega. He was indeed gorgeous. They needed to be discreet. They didn't want to scare the kid but he needed to know what would it be living with 6 virile alphas in the same house.

Sounded cruel but it may mean a better life for the boy. Nigel hoped the boy would accepted. Hannibal went inside the building with the boy tailing behind him. 1 hour later both were walking towards the car with a bag on the alpha's shoulder. Hannibal was smiling. The kid was blushing

And looking around awkardly.A month of visits from Hannibal had been successful. The omega will be living with them.

The trip to the house was long and full of awkward silence. Hannibal was good talking to the boy and making him feel loved for the first time. But the other alpha, Nigel made Will feel a bit intimidated. Will wasn't sure if they will treat him well but he was willing do his best. At least

Hannibal was very honest and bold. The man and his siblings were looking for an omega to take care of. Will knew it was about sex and control but he was touchstarved too so he made a vote to himself to be a "good boy".

They talked for a while and then Nigel started a conversation with him. Hannibal looked pleased and Will felt better. They stopped for a light lunch under a canopy of trees and that's where everything turned for the sexual realm.

Hannibal asked the boy for a kiss after the omega complimented the food. Will has never been kissed in that sensual way that took his breath away. The alpha's hands pulled at the zipper of Will's pastel sweater exposing the omegas breasts to the air. Nigel moaned at the sight.

Hannibal kept kissing the boy. Will was pushed to lay down on the blanket the alpha had prepared for them to sit during their lunch. The older man sucked red marks on the omegas neck and clavage. Will whimpered when his mouth found his perky nipples. The boy could hear Nigel

Masturbating in the background.Nigel said something about taking him there.Hannibal reminded him that the boy's first night was his. Nigel begged for something Will couldn't

hear because his ears were buzzing.The alpha fingers were playing with his entrance.When the older man moved aside

Will's shorts and underwear?, thought the boy. Hannibal kept sucking his nipples and 2 of his fingers breached the boy's pink rim. The omega came. Seconds later he felt Hannibal behind him supporting his weight and playing with his nipples. Will watched as Nigel came closer and started to

Pump his alpha member and finally..came over Will's wet entrance. The boy sighed. The men cleaned him and carried him back to the car. Will napped for a while in Nigel lap while Hannibal drove.

He was surrounded by different "versions" of Hannibal. Will felt a bit intimidated but also wanted to fit in. He tried to look small and talked softly.The alphas seemed to like him well enought. Even the one with a scar crossing his face looked pleased . Hannibal called him Prentiss

Hannibal had told him he would spend the night with him first and then he will choose the alpha of his liking for every night. Will wanted to be fair but since Hannibal and Nigel were the first ones he had met he thought Nigel would be a good choice for the next day.

Lucas and Martin had planned to provide with a homeschool education so he could get in and finish Highschool properly. They look softer than the other alphas.Le chifree had gifted him a necklace that afternoon when noone was watching them. He had put the chain around the omega's neck

And fondled for a bit Will's breasts after that. A quick peck on the boy's lips and that was that. The good thing was everyone had stablished they would asked for what they wanted to do to him before laying a hand on him. Will was glad and a bit scared too. He didnt know

What to expect but he was starting to know them bit by bit. That night after dinner and a pleasant conversation Nigel took Will to the studio where he told him Hannibal will be waiting to give him a bath at the alpha's room. Nigel kissed him and carressed Wills buttocks under his

Shorts. He left and Will nursed a hot chocolate while he looked out of the windows. Someone approached him. Will stood still. It was an alpha he hadnt seen before. He was wearing a beard and shortbuzzed hair. He introduced himself as Markus .Smiled fondly at Will and Kissed his cheek before leaving.

Will was about to enter what seems to be Hannibal's room. Every brother had their own room. Some of them work at day and some seemed to be conducting misterious bussiness by phonecalls. A pair of arms encircled his waist. A whisper in his ear :" Cant wait to have you,my boy".

It was Prentis. Will could feel the alpha hard member pressing from behind. He felt a little scared and horny at the same time. A wet kiss under his earlobe and the older man was gone. Will breath stuttered. He would ask Hannibal about the other alphas.

Hannibal bathed him. Gave him new pajamas and massaged his feet. Will felt so loved he cried in the alpha's arms. They talked about his lonely past and a bit about the other alphas backgrounds. Will suspected there was more behind Hannibal's words.

The omega was 20s. Lonely. Starving for affection and a place he could call home. Hannibal comforted him and promised they will love him and protect him. This would be a new home. A new family.Will thanked him with a peck. He was so tired after crying and taking a bath

He felt asleep in the man's arms. Hours later Hannibal was carressing his brown curls. Will smiled and said he wanted the alpha to take him. Hannibal said there is no rush but Will wanted to be good for him so badly.

He got naked and confessed he was a virgin. They slowly kissed. Hannibal carressed every inch of skin he had access to. The omega sit on the alpha's member taking him inside slowly. They started to move. Will came in the older man's knot and felt complete for the 1st time

In his life. Hannibal whispered his love. Called him "babyboy" and Will felt so loved he came for a second time. Next morning the boy woke up to Hannibal knotting him again. He moaned loudly and asked for more of the alpha's seed.

Late morning found Will with Markus in a beat up van. They were going to buy new clothes for the boy. Anything that Will wanted. They came back with a considerable amount of clothes in pastel colors and a few soft blankets.Markus told the omega what he wanted. Will shyly agreed

Minutes later. Will was sitting in the older man's lap. Naked from the waist down. 2 fingers inside of him. The man's member coated in the omega's slick and pressing against his buttocks.Markus kissed him with abandon. Like there was no tomorrow.

At the distance a bike was getting closer to the parked van. Will was still moaning when Lucas got closer to them and gasped in surprise.M: "get in and help our babyboy. He needs you too, Lucas".Will gasped it was Nigel's night. They couldn't penetrate him

Unless it was their night. Lucas stuttered they know and how can he be of help to the omega. W:"suck my tits..i..iam so close." Markus was still pumping his fingers inside of Will's wet hole. Lucas took off his glasses and started sucking and licking. Markus kissed Will and the boy

Came moaning in his mouth his climax. Later they had lunch at home. Will was more relaxed and laughed easily. Martin complimented his new clothes and Nigel carressed his tight under the table.

H:" everything looks in order except for a bit of swelling around the rim, you are ok". Will was about to dress when the alpha put a dollop of a cold cream down there.he gasped.H:"Come to me everytime. I am a doctor. i want to take care of you. Make sure you are healthy"

Will blushed and thank him. Flashbacks of the night with Nigel running tru his mind. The alpha was so passionate he wouldnt let the boy sleep at all. Coming morning the omega had

been knotted many times, pleasantly full of the alpha's seed. He was so tired.

H:"You should rest tonight. Want me to talk with your tonight's alpha?".W: "No. It won't be necessary.thank you, Hannibal". Will spend the day at the garden. Reading a book Martin had lend him that morning after feeding him. An old alpha was walking towards him. Will was face down on

A blanket. He was a bit surprised of meeting yet another brother. The man introduced himself as Duncan. Said he only visited on Saturdays. They talked for a couple of hours and Will asked him if he could stay the night.the older man smiled and said he couldn't since he had work

Will face fell but fingers lifted his chin and suddenlly he was been kissed by the alpha. They made love under the shadow of the trees. Duncan was kind and attentive of the boy's needs. He went slow and tender. Will felt loved.

While they were rocking back and fort over the blanket Will saw a shadow behind a tree. He was about to said something when Duncan's fingers started playing with his breasts as he picked up the speed . Will forgot about anything in that moment.

Later the omega was taking a shower. He was thinking about the eventful day and decided to stay in his room and rest that night. Suddenly arms surrounded his waist. Someone whispered in his ear: "I saw you with Duncan. Do you think you could make a "space" for me today, pet?"

Will gasped. It was Prentiss. He nodded and then moaned. His hands on the cold tiles.the alpha member was breaching him.Big hands cupped the omega's chest. The alpha started fucking the boy mercilessly. Moans and grunts could be heard coming from the boy's room

Will had just summited his project to Martin and Lucas. Both always proud of his progress. He would be able to get in HS pretty soon and skip some years since he was so smart and dedicated. A knock on the door alerted the 3 men. Lechiffee was smiling at the boy.

It was "his" day after all. LC:" When you're done, please come. The limo is waiting. Everything is taken care of. You don't need to bring anything, babyboy." Will blushed at the petname. Martin and Lucas went to kiss the boy on his fringe and mouth respectively before taking their

Leave. /The omega was a bit nervious. Jean , as the alpha had told him to call him in private, was so misterious the boy wouldnt know what to expect from him. They were holding hands in the silence of the limo.W:"Where are we going?".Le chiffre smiled at him and kissed his knuckles

LC:"To my yatch of course. I wanted to give you a relaxing day at the sea". Will gasped. W: "I've never been to the sea...or the beach, actually" .Jean smiled at him and kissed his cheek. LC: "you are going to love it, babyboy." The alpha leaned over the boy and captured

His lips in a sensual yet slow kiss that left the omega gasping for air and with a hard on under the silky fabric of his shorts. Will relaxed so much in it that he went to sit on the alpha's lap

where he remained for the rest of the car trip.

The luxurious boat was in the middle of a beautiful blue sea. There were bodyguards on board. One standing a few meters away from the couple and the other one inside the cabin. Jean was rimming the boy with such entusiasm his broken moans could be heard by anyone on the vecinity.

The bodyguard wore a bit of pink on his cheeks but kept a stoic expression on his face while he was facing the sea. Jean stopped his ministrations and returned to suck the omegas supple breasts for a couple of seconds before aligning his member to the wet gapping entrance

The man breached the omega in a fast motion only to started a punishing pace. Will's nails were leaving half moon marks on the alphas bare shoulders. Both men naked to the sky and sea.

Will was moaning and mewling beautifully. The alpha's knot was hitting his pink rim. Will's legs surrounded the man's waist and squeeze it to let him know how ready he was for his knot. Jean smirked and sucked on the boy's neck

While he fucked him hard and slided his knot inside the warm body under him. Will came at that moment. The man could see new freckles adorning his babyboy face. He closed his eyes and came inside the omega. The next knot was given inside the cabin while both bodyguards were

Outside exchanging glances and sweating under their suits./ Will came back home with wild curls, new freckles on his nose and a terribly expensive diamond encrusted collar around his neck.

Captain Alpha Hannibal/virgin teen omega Will

Chapter Summary

omegaverse/olderman/younger man/virgin Will/Captain Hannibal

Will had just presented as omega when his stepmothers Margot and Alana decided to celebrate his birthday with a surprise Bahamas cruise. It was the 2nd night on board when he spot the older man. He looked like part of the staff or someone who worked beside a

Captain. He got a regal air and facial features of a nordic god. Young Will was enchanted with the way the man moved around the sea of passengers greeting and dancing with some old ladies only to part ways to whoknows where. The boy's blue eyes followed the man most of the night

During dinner until his mothers went to the dancefloor. Will smiled at them and lost track of the handsome stranger. He looked at his mothers smiling and dancing under the beautiful lights when he decided to go to the bar.

The boy felt a heavy hand on his shoulder and turned around slowly only to be startled by an alpha invading his personal space. Will took a couple of steps back to put some distance but the man kept his hand on his shoulder. W:"I'm not inters-". H:"there you are, my dear".

The handsome stranger had come. His arm surrounded Will's waist and the boy lost all capacity to talk. He was even more attractive at close distance. The other alpha murmured his apologies and left. H: "May i have this dance?". Will just nodded and took his hand

They danced a couple of songs.W:"whats your name?. H:Hannibal. And yours beautiful boy?".Will blushed. W:"Will. Thanks for that". Hannibal could smell the boy's arousal. He wished he had approached him when he noticed him the first day

They didnt talk again . Enjoying the closeness and warm embrace of their bodies moving to the slow songs. Will felt a spark of boldness matched by his own insecurities. W:"can you..wait for me at the entrance of the hall?". Hannibal just smiled at him and left. Will went to his

Mothers to tell them he was feeling a bit tired and was going to retire to his room. In his mind he thanked God for having a private room to himself. The boy was a ball of nerves but he walked with confidence in his step. Minutes later his back was colliding with the door

Of his room closing after the couple entered. Hannibal was taking his breath away with every passionate kiss. They explored their bodies over their clothes until the man took him by his

bottocks and lift him only to let him down over the bed. Will saw Hannibal undressing

Taking care of not getting wrinkles on his uniform. He was glorious. The alpha undressed Will leaving scatered kisses all over his body. Will was about to tell him he was a virgin but bit his own tongue when the olderman took his omegan member in his mouth.Will moaned

The older man's name. 2 fingers breached his entrance making wet sounds at the same time the alpha's mouth sucked on the boy's member. Will felt apart in a couple of minutes. He came and trembled at his climax. He was gasping for air when the blunt head of the alpha's member

Penetrated him. The omega mewled and hold on for dear life with his nails to the mans back. It felt incredible. H kissed him waiting for the boy to get used to his size. Will relaxed again and then began the most wonderful night for Will. He was knotted and came so many times

He lost count. It was natural and like they knew each others bodies from a long time ago. They were beyond words. Their scents mingling together like they were fated mates. Will cried from so much pleasure. Hannibal kissed his tears away.

For the remaining days on board the alpha came to the boy's room every night. They talked and fuck until early hours of morning.the last day of the trip Will was feeling a bit down because if the impending good bye.

Margot looked at his son picking without interest at his dinner plate.M:"Will..are you ok?. We are going to meet with an old friend of Alana and he was exited to meet you but if you dont feel up to it you can go to rest, baby.". W:"it is alright mommy. I will introduce my self

And then retire for the night. I am just sad our time on this ship has come to and end. I enjoyed my birthday gift.thank you". Will was in shock when he saw Hannibal took a seat at their table. H:"good evening. Will.Alana.Margot. I would like to court your son". Will almost faint

From happiness but ended up confessing he knew the man and they had bonded over conversations and dances. He left out the part where he had lost his virginity to the man. That very night the man sneaked into the boy's room and claim him.Biting his mating gland just as he knotted

The gorgeous omega . Will riding his knot on his lap. There was a considerable age difference but it was obvious to anyone they were perfect mates. 💜

Will never thought he would find himself in a situation like this. He was sprawled on a beach chair balcony. Naked to the sun. His body covered in scented oils. Nigel had come into his room at 6 am waking up the omega with his mouth on the boy's member.The man

Was at it for a couple of minutes before the omega was coming down his throat. Now Will was panting after he had massaged his body. 3 oiled fingers were breaching a Will's wet entrance. Nigel was smirking. Still clothed and looking in the general direction of Lucas's window

He could see Martin and Lucas watching at the scene in rapture . He knew they will come after he fucked silly his sweet babyboy. He had sent a text to Martin. It was Nigel's day he could do whatever he wanted and what he wanted now was fucking the boy under the sun and later

Have a smoke while he watch his siblings slowly doublepenetrating the omega. But now Will moans were making him hard as a rock. His fingers brushed the boy's prostate and he almost screamed in pleasure. The omega supple breasts

Tembled with his heaving chest. Nigel couldnt wait anymore. He was shirtless. The man opened his pants and pulled down his underwear.His alphan member bounced out of it. Nigel smirked while covering the omega's body .N:"Gonna fuck you until you are so open you can fit 2 cocks at

At the same time, babyboy". Will whimpered. The older man breached him easily. Nigel fucked him at a punishing pace. The chair legs scratched the floor because of their movements. The alpha knot slided inside the boy's warm body while he growled his climax. His hand went to the

Omegan member and squeezed denying the boy his orgasm. The teen whined but Nigel just smirked. They were both covered in sweat. The alpha let go of the small member and capture Will's lips in a kiss. He whispered against his pink lips. N:"I fucking love you, darling".

The man carressed the boy's face and flanks. They kissed languidly until his knot deflated. He got up. Will was the picture of debauched. Oiled naked body. Alpha cum leaking from his entrance. Blushing from head to chest. Nigel whispered in adoration:"Cant wait to see your face

Hannibal was done. Noone could ever find the remains of his last hunt. The place was perfect. a isolated small forest. He stood up ans startes to covered it with twigs and flora scatered around the cold forest floor. He smiled to himself and look up at the moon.

His nose picked up a scent. It was sweet and a bit tangy. An odd mix of peaches and blood. It was delicious. He started walking bristly in the direction of the scent. His alpha fangs tingling. In his eyes the typical red halo could be easily seen. His instincts were calling

To him to Claim. Mount.bite. In a few seconds he was infront of a cabin. The smell of furry companions and cozy home in his nose. He got closer to a window. What he saw made him feral. His inner alpha was vibrating. He wanted to crash thru the window. There it was the most

Beautiful omega he had ever seen. He was still in his pajamas but they were ruined with the amount of slick and sweat. He was drenched in fluids. Humping a pillow lost to his own pleasure while many dogs looked at him. The alpha felt possesive. He wanted to be the one giving

Pleasure to this beautiful man. He waited no more and crash tru the window. The omega stopped and started to growl on all fours over the bed. The dogs got scared and ran upstairs in panic at the mingling angry scents.Hannibal didnt approached but began to undress from his murder

Suit to his underwear until he was naked. A big proud hard as rock alpha infront of a growling omega. The omega jumped at him. They rolled to the floor fighting . Trying to dominate each other. Scratches and bites turned into feral gropping and scenting each others necks.

Hannibal kissed the gorgeous man who at first tried to bite his lips. but with the alphas fingers carressing his entrance under his boxers and a single digit breaching thd wet ring the omega turned to a purring mess in his arms kissing back the alpha. They kissed and grop at each

Others. 2 of Hannibals fingers were inside the omega by now. Their kisses gentler. Needy gasps leaving the omega's mouth when a 3rd finger breached him. In that moment The alpha

turned them around to be on top of the younger man. He pulled roughtly at the omegas boxers and

Then at his drenched t-shirt. Omega's cheeks were red and he slowly opened his legs for the alpha.Hannibal went down and sucked on the mating gland making him moan. His alphan member breached the omegas rim and he started to fuck the younger man at a punishing pace. The

Omega's legs surrounded Hannibal's hips. Suddenly the man was coming on their stomachs. For the alpha it was the most beautiful scene. His knot slided inside the warm body under him and he came. He kept fucking the omega plaint body who was now purring in pleasure. Hannibal came

For a 2nd and 3rd time inside.the omega's womb before biting his mating gland deep. The younger man whimpered and his arms came around the alpha neck. The omega kissed Hannibal until he fell asleep. The older man keep fucking him even then. Round after round of seed filled the

Just an adress and a phone number and a H at the end of it. 2 days later he couldnt belive it when he found himself infront of the same alpha at Jack's office. Hannibal was his name.Will scaped to his classroom. Hours later the alpha was at the parking lot waiting for him. Will

Went to him and got inside the Bently with no words. That night they made love and claim each others with kisses and bites over the alpha's red sheets. 💜

Emir Hannibal/concubine Will

Chapter Summary

omegaverse/ lactation kink/post mpreg

Will's father was feeling sad for he has to give his only son to the Emir and proud Will was considered beautiful enough for the Emir's eyes

The omegas were forming a line infront of the councelor. They were waiting for the Emir to come and choose himself his new concubines. Will was so anxious. He was the only man. He thought thw women were of incomparable beauty. Even his friend Alana, who was daughter of the

Ambassador was here. Will though she would win the Emir favours. She was by far the most beautiful omega in the city.

The councelor came and looked at them disdainfully. Will was sure it was useless to be here. Where everyone was more or less nervious Alana was radiant and smiling. At that moment the Emir came with a pair of guards behind him. He was all hard angles and attractive

Strong built alpha. He was wearing a cape and a gorgeous daga on his side.Will almost missed it when the alpha called Alana's and his name. The Emir has chosen them as their only concubines after years of being busy with wars and trade agreements. Now he needed a legacy. A son..

The first 2 days the Emir didnt show up at all at the concubines hall. Will got a private room for himself. All kind of comodities and expensive sensual dresses which put in display all his curves under traslucent fabrics and golden chains hanging from his rosy nipples

A flimsy fabric as a facemask covered his facial features. Servansts kept him beautiful and put kolh in his eyes in case the Emir choose to spend the night with him. Will suspected he had already come to pick Alana and so he waited reading books and walking tru the palace gardens

One night Will waked up to a knock on the door. He didnt get time to wake up properly when a couple of guards entered and after them the Emir himself. Hannibal went to the omega's bed smiling. He offered the boy his hand. Will blushed and took it. Will was wearing a traslucent

Nightgown. All his clothes seemed to be traslucent to show up his body. He wondered if Alana's were the same. Hand in hand they went to the alpha's private chambers. The guards

left after the Emir entered with the omega by his side. The alpha sit on a seatee.He spoke:Come. Sit

On my lap, Omega. My name is Hannibal. You can call me that in private. Call me "my Sir" infront of others.Will sit but the alpha turned him around so he was straddling the older man.H: Your only work is to keep warm my cock whenever i ask you to. Smiled warmly the alpha

Will just nodded. The alpha's fingers started playing with the omega's nipples over the fabric. He then started undressing the boy. Will was red in the face and ears. Hannibal pull him by the waisted and kissed him. The omega felt overwhelmed by his passion.

After a few moments the omega was gasping for air.Hannibal let his mouth in order to suck at his hard nipples. The alpha sucked and licked them with the same fervor he had just kissed the boy. Will was a whimpering mess. Slick ran down his entrance and wet the alpha's pants

Will nails left mooncrescent marks on Hannibal's leather armor while the older man was busy abusing the bulbs until they were red and sting. Then he freed his cock from the confines if his pants. He lift the boy and started to impaled him on his member. Will's virginal entrance

Was breached by the big alphan member slowly until it was inside of him. The boy was sweating from the effort and hold on to the alpha's shoulders. Still he whimpered in a mix of pain and pleasure when the man started fucking him in rabbiting motions

The omega was about to come when Hannibal's knot locked them together. The omega came at that moment over the alpha's clothes. Will's face collapsed on the man's shoulder. He could feel a big warm load of seed filling his insides. The boy started purring. Sleep claimed his mind

Hannibal smiled at the beautiful boy. He had found his spouse. Alana will have to go back to her home since the alpha had decided to taste the boy first and ultimately chosen him over the woman. She would live to be the wife of an important dignatary instead of a concubine

He took a book from a nearby table and started reading until his knot deflated. When it did the man took the boy in his arms and put him to bed where he kissed his parted lips. Hannibal took a bath in the small pool hidden behind a wooden screen. Hours later he was finishing

Some important documents when Will started to wake up. The alpha called to him: Will..come. Will recalled in that moment what was his work and scrambled to get out of bed still naked but clean. The alpha did it. Will blushed. Hannibal was in just a pair of soft fabric pants

He freed his cock and offered his hand to the no longer virgin-boy. Will took it and went to work warming the alphan member while Hannibal kiss his cheek and kept on working on the documents for an hour.When he was done he carried in arms the boy to his bed where he took him

Once again knotting him and filling him with his seed a couple of times. They fell asleep hugging each other. A week later Will was curious about Alana's absence. Where before he could see her walking around the garden from a distance he now couldnt find her at all. He growed

Unease at the idea of the Emir dismissing her after using her body. He bit his lips and keep quiet. The alpha looked for him more with each passing day. He bargued into the omegas room and suck on his nipples until Will has ruined his own clothes from too much slick. Then

The older man fucked him until his knot was inside and Will's womb was full of his come. Other times the man called him to warm his member while working on his desk. Hannibal treat him with so much care they had grown closer over the days. So the boy decided to ask for Alana's

whereabouts. W:Can i ask a question, my Sir?. Where is Alana?. Asked the boy while sitting on his lap.Hannibal smiled at him . It looked like Will was asking about her out of concern instead of the jealousy that the older would expect from any concubine.H: She is safe back at

her father's home. I didn't touch her because i was enchanted by you, my love. When i went to look for her that night i smelled your sweet scent and any thought fled from my mind when I saw you in concubine clothes. You are my wife. The mother of my children. Will gasped

in surprise. He didn't expect that at all. Hannibal kissed him at that moment. Months later Will was in his private chambers. He kept the room even when he spent all of his nights at the Emir bed. Today he was reading a botanical tome while caressing his big loaded breasts

they were full of milk. the omega looked at his side. a small crib was next to the table. A tiny baby was sleeping peacefully. Hannibal entered the room. careful to not wake his pup. He smiled at Will and kneel infront of him.H:May i?. Will blushed and nodded. Hannibal sucked

on his nipples. drinking the sweet milk. after a few moments of soft gasps he covered the omega's body with his and pulled aside the opening of the flimsy pants Will was wearing. A perfect place for an opening indeed. He took off his pants and aligned his member with the wet

entrance and breached the boy at once. Wil bit his lip to kept from making noises. The alpha fucked the omega as fast as he could until his knot slided inside the warm channel. Will put both of his hands over his mouth. Hannibal kept trusting into him

until he came just as Will did at the same time . The alpha collapsed over the boy. After a few seconds he kissed him tenderly. Will hugged him by the neck. They smiled at each other until small whimpers came from the crib 💜

Merman AU /hannigram/spacedogs

Chapter Summary

merman Will/human Hannibal
merman Adam/human Nigel

Merman hannigram and spacedogs AU/Merman Will/human Hannibal. Merman Adam/human Nigel.

Its been 2 years since Hannibal catched Will and his younger brother Adam. At first Will was feral and wouldn let him get near them trying to protect his only sibling. Over the years they got to know each

And develop mutual respect for their species. Hannibal still got a few scars on his wrist yet Will was inmaculate since a blade under his jaws was all it took for the both of them to know they were equals at killing. Adam was too young to understand what happened so it was easier for him

To Warmed up to the man who feed them and keep them in such a beautiful place. An enormous underground pool with many passages and tunnels where they could travel at ease exploring the ecosystem Hannibal had build just for their comfy stay. Over the years curiosity turn to admiration and

Then to attraction. It was a surprise for Hannibal and Will that one lazy evening when Hannibal would no longer fear for his life and was lazily swimming along Will the latter kissed him just because he felt like it. It wasnt a surprise for Adam who had witnessed how close his brother and the human had

Grown. It started one night. Will told Adam to go to another area. His mating cicle had started and he needed to be alone. Adam obeyed but when he could he would spy on them. It was new for him and made the young merman feel really curious. Hannibal would came to swim with Will at night. They would

Kissed and explored their bodies until the human orgasmed under Will's hands or tongue (careful of his sharp teeth). But this time Will was panting and a traslucent slick gushed from a slit at the base of his tail on the front. Will asked him to touch him there. Even his nipples looked

Swollen. Hannibal did as asked and a phallus emerged from the slit . Under it a pink sensitive canal which Hannibal fingers explored as Will moaned wantonly. Will begged him to put

something inside. He felt empty. That night Hannibal fucked the merman under the moonlight. Adam was quiet and got hard as he

Watched them made love. Hannibal came inside Will many times. Will always meowled with every warm load filling his insides. Hannibal would come every night even out of Will mating cicles just to be with him. Adam wanted something like that. He growed curious and asked for anatomy books. Such an eager

Student of humanity like his brother was. They learn quite quickly to talk and to read in 3 languages. Will enjoyed their conversations at night. Adam loved the shorts periods of time he could use outside the pool the telescope Hannibal had gave him. A year later a stranger man arrived almost

by accident. That's what Will thought at least. Adam looked at him openly oggling his body. The man who was drunk before found himself stunned to silence at the sight of 2 legendary creatures in a secret pool under his brother castle. He now understood why so many cannals

Protected by plexiglass surrounded the property. They needed space to explore and swim for a few miles. Will got quickly bored by the human brothers conversation and went for a snack of crabs at the other end of the pool. Late at night Nigel came back. Will feighed to be asleep

While his brother asked a million of questions about how the man had come to survive a fatal wound to the head and took a long time healing on the upper floors of the castle until now. Adam was blushing. Eventually Will deemed the human safe enough for his brother and leaved in search of

The private small pool at Hannibal chambers. He liked to get in bed with the man even tho Hannibal would get a bit annoyed at the wet sheets. Adam asked timidly. Adam: "I need to know how it feels to be fucked and i like you a lot. Can you do it to me?". Nigel was shocked but recovered quickly enough.

It was almost like a class. Adam would touch his member and guide it to his slit. His own merman member even flacid until the man would breached him and started to move his hips in time with Adam moaning. Adam came first then the man who couldnt stop calling him petnames Adam wouldn't listen for

He was enjoying himself so much.Adam kissed Nigel after that and asked in a soft voice if he could come every night to fuck him.Nigel couldnt say no to those beautiful baby blue eyes.Such was the secret the brothers had for many years and noone knew until a century later when a descendant

Wrote what was supposed to be a fictional novel but in his heart knew was the story of love between 2 merman and 2 men.💜

omegaverse/initial noncon/hypnotism

Will felt anxious but put on his best casual and relaxed expression so the counselor wouldnt notice. This was going to be his first session with the man he had a crush on since the beggining of the year.

Dr. Hannibal Lecter opened the door and welcomed the omega into his office. It was after school hours. After a light conversation he began with hypnotism. It was supposed to relax the boy from his angry outbursts and fights with his beta father.Hannibal had other plans. He wanted

The beautiful boy to himself. It wasnt uncommon the use of toys to relieve the stress of the hormones on omegas. Usually done by professionals like him. Will's father had decided after a short conversation with his son. Of course Will was mortified but agreed just because Dr. Lecter

Would be the one helping him to overcome this unstable phase in his life. Hannibal talked in hushed tones. Will relaxed bit by bit. Looking at the pendulum and hearing the alpha's sensual voice. He wouldnt remember what had transpired between them until that night when he would

Had vivid dreams of what Hannibal had done to him and then masturbate to those filthy images. In the present Hannibal took him by the hand when he deemed the boy was ready. He pulled of a big book on the shelf and the wall started moving to reveal a secret room. The wall closed behind

Them. Consealing the room and leaving an empty office to the naked eye. There was a big bed, a shower stall with a bathtub on the corner and a small closet. Hannibal softly pushed the boy to sit on the bed and proceed to undress him. Will stared at him with a lost but relaxed

Look on his face. The alpha made him rest over the sheets and went to pick a massage scented oil bottle. Hannibal left his jacket on a chair next to the bed and rolled his shirt sleeves. He started massaging the boy's shoulders. Taking his time massaging his chest and rubbing

The boys pink nipples between his fingers. Will sighed and his small omegan member began to get hard. Hannibal's hands carressed his stomach , thighs and calves to then went up and opened his legs. A finger tip breached the already wet hole. The older man smirked and started

Fingerig the boy entrance until he got 3 digits inside. Will was softly moaning and trembling from pleasure. Hannibal leaned on and one of his knees supported his weight on the bed. He took the small dripping member in his mouth. Will whimpered. After a few minutes of hitting on

The boy's sweet spot Will came in Hannibal's mouth with a broken cry. Hannibal swallowed . He climbed on the bed and claimed the omega's lips in a delicate kiss. This would be the first of many sessions. By the end of the month the boy would be his...

Will's father was happy with the new relaxed demeanor of his son. It looked like Dr. Lecter session had improved the boy's mood. Will was no longer rebelious to him. The omega went again. He was blushing. Recalling his vivid dreams and trying to not get hard. This time Hannibal

Didnt use oils. He started kissing and sucking at Will's soft pecs and nipples. He kissed his lips with abandon while he touched the boy's member. As a precaution he undressed too. Will sighs encouraged the man's hands. His own alphan sex hard as rock against the boy's body as

He moved over him. Will couldn't reciprocate the kisses but his soft moaning was enough for the alpha. His big hand surrounding the omegan member as the boy was coming closer to his impending climax. Hannibal lips left Will's to latch on to his mating gland and sucked hard at the

Rhythm of his wrist pulling at the omega's small dick. When Will came on his fingers the man was growling proudly.When Will was still trembling he closed the boy's thighs and started intercrural sex. Pistoning his member between soft skin so fast it was getting pink from friction

Hannibal came. He opened Will's legs and rubbed his spent cock around the boy's wet entrance imaging he had just filled him to the brim with his alpha seed

Bev asked him:"what is it? You look calmer somehow. Didnt even call bullshit to Professor Chilton's comment about omegas getting first heat treatment by professional alpha therapists?".Will scrunched his face:"don't laugh at me please. I got therapy".Bev couldn't stop laughing. Will hid

His face and groaned. Next time he was with Dr. Lecter he couldn't tell him about his dreams. He kept quiet. Hannibal was rimming him on the bed. Will looked at the ceiling and kept gasping and moaning while slick got on the alpha's face. Minutes later the boy came. Goosebumps all

Over his skin after the sweet assault by the alphan tongue. The older man had waited enough. He didnt put on a condom since the omega couldnt get pregnant unless he was in his first heat. Which Hannibal had planned to assist him with. The member head breached the pink ring and then

The man stopped. He started masturbating as fast as he could. A few inches going inside the boy's entrance with each move but the alpha didn't bottom out or prenetrate him further. He was gasping when he filled the omega's body with his seed. He stayed there for a few minutes

Before disentangled from him to claimed the boy's rosy nipples in his mouth. Next time he would knot him for he couldn't hold back anymore. Will no longer argue with his father or teachers. His grades improved as the days passed by. He had started to masturbate to his vivid dreams

His libido was higher and he talked in quiet tones to his father about the possibility of a first heat coming soon. They talked about toys or an assisted heat with an alpha of trust. His father came to a solution which Dr. Lecter had planted a seed before hand. Will went to his

Next session with a light fever. He even needed a pad to prevent slick from ruining his clothes during classes. After class he went to Lecter's office and talked about heats and appropiate toys with knots.

Will closed his eyes sooner than usual. Hannibal thought it meant he was already under the spell of the pendulum. He undressed the boy and then himself. He was going to knot him today. Will's hole was so wet and gapping. It was a preheat symptom. He was ready to be claimed and his

Feverish skin was tingling under the alpha's touch. Hannibal kissed him sweetly. Sucked on his neck, nipples and ribs. Will gasped in pleasure. His blue eyes lost and halfclosed looking to the ceiling. Hannibal didn't waste any time. He alined his member to the wet entrance and push

Breaching the virginal hole in a single move until he bottomed out. Will whimpered. His eyes wide opened. He was suddenly awake. Councious to his surroundings and the man above him. Hannibal gpt his eyes closed so he didnt notice. He kept moving. Started fucking the boy. Will closed his eyes and moaned.

Was he dreaming? Dreaming of Dr. Hannibal "fucking" Lecter pounding into him?, thought the omega. It was amazing. Will's hands clasped the sheets to prevent himself from moving. Hannibal put the boys legs over his shoulders and picked up his speed. The older man smelled Will's neck. Will

Whispered his name "Hannibal..". The man stopped moving. Will was having none of it. He begged: "knot me...i need..Hann..". Hannibal recovered quickly . He started pistoning his hips with such abandon the bed was hitting the wall with each thrust. Will's inner walls were clenching

Around the alphan member. Hannibal knot finally slid inside the warm channel expanding itself. He filled Will with warm seed at the same time the boy came over their stomachs. They look at each other. Hannibal released the boy's legs. Will pulled Hannibal down by his head

They kissed languidly for a couple of moments. Will gasped on the older man's lips:"Would you help me ..with my heat..like this?". Hannibal smiled at him:"It would be a honor if you let me help you with every heat from now on, sweet boy?.Will you forgive me for wanting you from

The very beggining?..i am selfish.. i want you..only for myself..". Will was blushing. He was nodding. This could be dangerous and was going too fast and he was in for it. /Bev was looking at him. A bit of concern on her eyes and a blush on her cheeks: "I can help you. You know. We are

Friends". Will blushed at his alpha's friend words.:"I know. I got someone who will help me with my heat.Thanks tho"./ Will father agreed to let Dr. Lecter help his son during his first heat. With proffessional toys and the alpha presence the heat would be easy on his omega son

When the day came Hannibal picked the boy from his house and took him to a luxurious heat hotel. They would have privacy and room service for the duration of Will's heat. Will was trembling over the sheets. Hannibal had left marks all over his body. Even had left purple red

Marks on his mating gland. Marks of teeth around his soft pecs and nipples. The alphan member was penetrating him in each thrust. Will moans filled the room while he pulled from the man's hair. Hannibal's knot was bumping against his rim deliciously.

Hannibal sat on the bed and pulled the boy on his lap. Will gasped as his knot breached his entrance and expanded inside of him. The boy bit the man's shoulder as he came untouched. Hannibal kept thrusting up untill he came inside the omega's warm insides. The last day the older

Man bit the omega's mating gland claiming him as Will had asked him to. A day later Hannibal invited Will's father to a private dinner in his home to talk to him and his son about his intentions of courting the omega.Will was blushing and trying to pretend he was surprised.Will's

Beta father was in shock but thought who better fit than a thoughtful gentleman to be his son's alpha. And he was also in a good financial position. Will would have a good life. He asked Will if he wanted that. The boy only nodded. He was filled with joy. A month later was made

Official that the counselor was the boy's alpha. Will got to spent all of his heats with the man. He was only a bit confused about omega teacher Bloom who was angry at him for some unkown reason he didnt care at the moment. He was happy💜

the older man's hands went under the boy's sweater to play with his breasts and exposed them to the nigh air. they were sitting on a deck chair. Will exposed his neck to the alpha mouth. Hannibal kissed it. sucking marks over his skin. Will's hands covered the older mans over his chest

animal traits/omegaverse/LeJoe (LeChifrre/Joe Connor)

Chapter Summary

older man/younger man/lust at first sight

i added a few words as here i got more space than in Twitter where there is a limit of words per paragraph

LeJoe/Le chiffre/Joe Connor/animal traits . Joe was drinking his tea while reading an article in a boring magazine. He loved his mother and should be happy for her but had to recognize her dates with her new suitor meant he had to fly out of the door everytime the bear came

To visit her. The worse part was waiting. Suddenly he felt eyes on him. Joe turned around only to find unmatched colored eyes looking at him in a predatory way. The man was of a intriguing beauty. Exotic and surely a predator.Maybe a lion, thought the young boy.

The man didnt smile at him. Merely rose his wine. Joe smiled akwardly and looked around thinking he couldnt be the one the older man was looking at. Then a waiter asked if he wanted to order now. The boy was feeling a bit hungry so he asked for a salad and a beverage. The waiter

Informed him the meal would be on Mr. Le Chiffre.Joe blinked:"I..i am sorry, who?".The waiter smiled and left. Joe looked at the man on the other table. This time he did smirked. The poor boy's blush went from his cute ears down to his chest. He smiled timidly and looked at the

Table in embarrasment. He ate in silence stealing glances at the older man who only drank more wine and smiled at him here and there. Joe spine was tingling. He knew somehow the man was dangerous. Even more to an hervivore like Joe. He should leave. After the meal he wrote a note

Thanking Mr. Le Chiffre and left for his hotel room praying his mom's date had concluded already. The waiter was just taking the note when Joe fled to the elevators. When he was inside he closed his eyes and sighed in relief. The door didnt closed. A hand stopped it. It was the

Man from before. Joe gasped in surprise and pushed himself to the nearest wall. Le Chiffre entered the small space and the doors closed. There was silence for a couple of seconds and the man's sensual voice surprised the boy: "Good evening, i hope dinner was to your liking?"

Joe nodded and whispered his thanks. In the blink of an eye the older man had cornered the boy against the cold metalic wall. Joe's eyes widened in shock. Le Chiffre looked at him. It

was like he was studying the boy's reactions. Then the predator's nose carressed Joe's neck. Joe closed

His eyes. Le Chiffre was scenting him trying to find out which kind of hervivore he was and at the same time marking him with his own manly scent: "mmm delicious. I thought you could be a gazelle but what a wonderful surprise...bunny". Said the man in a gruffy accented voice filled with

Desire. Joe trembled and opened his eyes. LeChiffre was exited since his black ears and tail were showing already. Joe:"You..you are a ..black panther?". LeChiffre smiled at him and licked the boy's lips. Joe gasped which the panther took advantage of. LeChiffre was kissing him then.

Joe got lost in the intoxicating kiss. The older man's hands were all over his sensitive body.Pressing him against the cold surface and the predator's body. LeChiffre opened his eyes to survey the situation. Joe looked debauched already. All pink glistening lips and panting. His gorgeous

Brown bunny ears over his head. LeChiffre hands went down. He gropped the bunny little brown fluffy tail and dig his finger where his sweet entrance would be under his pants. Joe whimpered. The man asked possesively:"Your name..bunny". The boy gasped:"Joe..Joe Connor". The older man growled

His big hands went to the elevator panel for a moment then to the boy's shirt . He opened it slowly revealing the bunny chest. Puffy typical omegan nipples. The man got the jackpot with his boy for he was an omega, but even if Joe were an alpha the older man would "eat" him too. He licked and kissed Joe's neck to distract him from what his hands were doing.

Kisses went down the boy's pale column until he finally got a perky nipple in his mouth. Joe pushed his body towards the man's warm mouth. Le Chiffre sucked and licked until the hard nub was pink to then gave the same treatment to the other one. Joe's hands were on the older man's panther ears

Keeping him in place. The alpha let go of the nipple with a 'pop' to then fix his bunny's shirt. Joe was distracted. He looked at the man's eyes: one blue. One dark maroon. LeChiffre smirked at him and circled his waist with an arm at the exact moment the doors opened to a penthouse. 2 bodyguards were

Waiting on an small reception room. A door with a passcode panel to the left of them. Joe freaked out and started babbling about needed to be back at his own hotel room and how his mother would be worried sick by now. The man's smile fell but agreed to let him go on one condition:

LeChiffre:"Have dinner with me. Tonight". Joe looked at him and nodded. The older man left the elevator but not without a kiss to his forehead. Joe felt calmer. Maybe he could have a nice chat over dinner with the man. It didn't have to mean anything. Tho the boy knew deep inside he wanted

To stay and see where things could go . It was only natural he felt scared of the unkown.He went to her mother and his room. Joe couldn't belive LeChiffre was at the penthouse above them right now. When he knocked her mom opened the door with a smile on her face. Her bear boyfriend

Had just left. They talked for a while and Joe went to shower.He found a bussiness card on his pants. Hours later the boy wasn't sure if he should call the man ot not. His phone rang. It was LeChiffre. A limo was waiting for him. Joe dressed in record time and left.

Dinner at a fine restaurant was magical. The place was discreet and the lights were dimly. It added to a relaxed atmosphere. It felt sensual too.Both men talked in soft voices. 'Jean' as Joe knew him now reached for his hand over the table. His big hand caressing the boy's smaller

One. Joe wasn't as scared as before. Maybe it was because of the wine or because he knew a little more about the carnivore in front of him. After dinner they went to the man's penthouse. Joe went willingly. They entered under the eyes of the 2 bodyguards. They were alone at last

The older man undressed the boy as if he was a gift from heavens. With such reverence and so carefully that Joe felt safe. Maybe it was a one time chance or maybe they would meet again in the future. The boy didn't know but he decided to enjoy the moment. Both men's ears and tails were showing as they kissed and explored

Each other's bodies. LeChiffre marked and sucked on the bunny's puffy nipples until they ached. Then he ate the boy out enjoying the sounds Joe was making as the man licked and sucked at his wet entrance. Jean played a bit with the fluffy tail. His own long and black one moving from side to

Side. Sometimes it caressed the boy's ankles. The man went up and gave the virgin boy a taste of his own slick from his lips while he aligned his hard as rock member with the boy's pink ring.The predator breached Joe in a single slow motion. Joe gasped in surprise and

Pleasure. More slick was coming out of his entrance allowing the alphan member to penetrate him easily. He whimpered at every thrust. LeChiffre kissed every gasp and sound from his lips while he picked up his speed.Joe's legs went around the alpha's waist. His sounds morphing into bunny

Soft noises.The alpha knotted the boy . Joe came painting their stomachs at the bariest of touches of the alpha's hand while the older man filled him with his seed. The predator still pumping his hips leaned down to kiss the boy's lips again and again. They cuddle afterward until late in the night. Joe went back to his

his room. Pleasantly sore and satisfied. No longer a virgin omega bunny. Jean gifted him with a new phone which made the boy blush. With a bit of persuation Joe accepted it not knowing there was a gps tracker device inside. They would met some nights a week until Joe decided to go after

His dream of helping others in need in Africa. LeChiffre had bussiness there so it was ok until weeks later when the man had to rescue his boy from a traumatic experience. He got Joe in his arms and cared for him promising to never let him go. Joe believed him.💜

Nigel:"why the fuck do you hit him in the face?". Bobby eyes filled with tears:"'cause i am trash..iam sorry..i dont know why the fuck i ...". Nigel freed him. Bobby felt to the floor. A line of semen dripping from his ass. He wiped his tears and tried to stood up. Awkardly

Fixing his clothes in silence. Nigel did the same. closed his pants and put his hands on his own hips. He sighed in frustration: "get..get the fuck out of my club.". Bobby nodded and left. Nigel needed a smoke urgently. Why the fuck he had to put his eyes on a man like that

A week before he had noticed the younger man coming to his club every night. He looked like a cop. A bad one. Nigel wanted to get closer but had hold his horses. He didnt want to get involved with a cop.

Will opened his eyes to a grey nostalgic place and a handsome man sitting in a chair by his bed. He could tell that the mans smile was that if someone who had hold on to a weak thread of hope. H:"you are awake..". Will heard it as if the man couldnt

Belive his own eyes. Will felt the pain. the hours he must had waited by his bed. He kept quiet. His empathy making him feel the raw emotions of a man who had a fractured mask hiding his emotions. How imponent this man must had been before this moment. Did this man has feelings

For him?. Will throat felt dry and scratched raw. He coughed and the other man mived fast to bring him a glass of water. Will drank and thanked him in a soft weak voice. W: "than..thank you." He couldnt remember the name of the older man or even if they had met before. The older

Man nodded after looking at him for a couple of seconds. Maybe he knew. Will was a bit embarrased to tell him. The man excused himself to make lunch. Will gave him a forced smile. After all he was taking care of him. Minutes later he tried to get up from bed. Tho he didnt notice

Any wounds. He definitely hadnt as many as he recalled. He walked limping around the room admiring that "inside a cave' atmosphere until he reached the bathroom. He looked at himself on the mirror trying to recalled his last memories. Will bit his lip. He looked older. New scars

Adorning his body. What the hell had happened to him?. He gulped and closed his eyes. Did he still has 3 dogs?. Did his first lecture at the academy went well? Did he managed to buy that lovely cabin he swore to buy as soon as he could with his new salary?. He shook his head and

Decided to went exploring the house. limping looking at every room. This place was a work of art but felt full of nostalgia. Did the other man was a friend? A lover? A partner?.He didnt finished that train of thought. got to the kitchen following the amazing mouthwatering smells

H:"Lunch is ready. Eat and i will check your ...health.you can have wine or whiskey after it".Will was about to have his first bite but his fork still in the air before he asked. W:"Did i have an accident?.Is that why i am limping?".Hannibal considered lying to him but they were

Beyong schemes and lies. They emerged from the waves ..it was a new beggining. He wouldnt lie to his dear Will again.H:"we both fell from a big height to the sea..You protected me from the brunt of the fall with your body at the last moment and faint. I literally dragged you out

Of the dark waters and performed CPR on you. Ive been taking care of you for a couple of months. I could only hope you wouldnt suffered from brain damaged. ..i..". Will left his food and went to Hannibal. He wiped his tears as soon as they fall from his eyes.This man loved him

Dearly. Will didnt knew what to say to that. Had they being arguing at the edge of a cliff?. Did his scars were from back then? At that moment it didnt matter as he hold the older man by his shoulders in an embrance. Hannibal cried on his shoulder in silence. After it he

Calmed down and as his tears stopped falling he hold his beloved Will as he did when they were falling. Will's hand cradled Hannibals skull at that moment. Hannibal leaned on him heavily ,enjoying the intimacy. Wills fingers started carressing his hair and Hannibal sighed

After a few silent moments Will asked: "It is ok. We are both alive.
We can talk about it later. Lets...lets have dinner. It..it looks wonderful. Dont let it go to waste when you worked so hard on this". Hannibal nodded. He didnt want to let go of Will and that reflected on his

Face. Will had a strong feeling that they were husbands if not partners at least. He smiled a bit and started eating. There was a comfortable silence as Hannibal seemed to enjoyed Will's pleasure moans everytime he took a bite. After that they worked side by side cleaning and

Washing the dishes. Taking away the leftovers which Will joked about eating from their containers. Hannibal smiled broadly and Will felt he could had lived such a man. Hannibal taked them to the madter bedroom and started with the medical examination. A doctor and a rich man.

What had attracted such a man to Will?.Will knew he was missing years from his memories. Did they met at the academy or attend a conference and met by chance?. Obviously the older man must had pursuit him since Will was an awkard flirt. How was their first date..their first kiss?

Will thoughts stopped at that. W:"I ..i cant remember. My last memory was the day before my first lecture at Quantico.". Hannibal started at him perfectly still for a couple of seconds. Will kept going: "How much time had passed?. Whats your name?. When and how did we meet?..i am

Sorry. Thats too many questions. Forgive-.." The older man hand was cradling Will's cheek. He was so close.H:"Its been years. Your memory will came back to you. dont worry about that. My name is Hannibal. We met at your work. In your own words i wasnt that interesting". Will

Laughed out loud at that. The tension left the room and they smiled at each others. When the night came and after dinner Hannibal was wished him a good night rest taking a few sheets and a comforter with him. W:"Wait!. Can you.. can you stay?.i..forget it.. i." Hannibal got in

Bed. They were side by side. Looking at each other and Hannibal told him about his 7 dogs and his cabin and how wonderful were his lectures. They fell asleep after an hour of talking.

In the morning Will woke up to warm soft breaths on his nape and strong arms around his waist.

He thought to himself while blushing that it wasnt so bad to live like this. He closed his eyes and let sleep claimed him again. Days passed. Hannibal told him he didnt want to talk aboit the bad things that he wanted for Will to rememeber the good memories. From what he could

Understand they werent together when they fell but were in love tho a twisted form of it. Will could see real remorse behind Hannibal's eyes. Remorse for hurting him. Remorse for not being able to be by his side.W:"Tell me no more. You said my memories will come back eventually

Right?. Lets take this as it is . A new chance.". They kept sleeping together and living in a comfortable companionship. Will loved when they took long walks to the surrounding woods. Once a month a woman brough anything they may need. Will came to love his new life tho he did

Miss his dogs. One morning he woke up first as usual and was looking at Hannibal sleeping face. Without thinking he leaned down and brushed his lips against Hannibal's. The older man opened his eyes and kissed him back with passion. Will never recovered his lost memories but did

omegaverse/older man/younger man/secret relationship/1920's/

It was an anomaly. An omega in a town of betas. Hannibal was only passing by the small rural town. He was supposed to go to the city where a position as doctor in a hospital awaited him. The boy's father

had begged him to stay at his house since there was no hotel at the town and for him to examine his oddity of an omegan son. Hannibal accepted and decide to pass the winter there. He found himself with a long line of people waiting for the doctor to cure them.

He barely ate lunch and by the time it was dinner time he was completely exhausted. Tho he still smiled tiredly at the beta father when he cut the line of people to tell them that that was all for today and the good doctor needed to eat and rest for the night. Hannibal was stunned

when his eyes focused on the gorgeous angel sitting at the small table. The omega boy was beautiful and smelled of preheat. Hannibal kept a mask of seriousness and politeness. They dinned and talk about the constant fever the boy suffered from since a few days ago and what a

miracle to have an alpha doctor who could help his boy. His name was William. He was shy with his words but not so much with his glances. After dinner Hannibal examined the boy in presence of his beta father. slight fever. puffy sensitive nipples and cramps. Hannibal prepared an

herbal tea for the cramps and gave the boy a pill for the fever. they retired for the night after that. hours later a sound like a scratch woke up the alpha. a sweet scent. an omega scent. Hannibal opened the door to the attic which was his room and saw the boy standing awkwardly

in front of him. big blue eyes looked at him. a blush over the boy's nose and cheeks. Will:"Forgive me doctor. I have a dull ache. Can i come in?".Hannibal: "Of course. come in please". Will took a seat at the bed and started opening his shirt. Hannibal was professionally curious. The

the omega's nipples were redder than before. it sure must be a nasty itching that wouldn't let him sleep. Hannibal went to retrieve a small glass vial from his suitcase and started

massaging the oil on the puffy nipples. Will gasped from pain and then he moaned. Hannibal closed

his eyes for a moment to collect himself. Will thank him and fix his shirt. He told Hannibal about the cramps getting more intense over the days and how he couldn't even help his pa' with the farm work. Hannibal explained he should rest more since his heat was coming. Will didn't

seemed to understand that but yawned at that moment. Hannibal sent the boy to his room to sleep. He couldn't stop himself to jerk off later that night. Next day was pretty much the same but the people started bringing gifts such as flour, corn , baked goods and he shared them with

Will and his father. later at night Hannibal hear the same scratch noise. Once again Will visited him. the oils seemed to help only temporarily. The alpha had to explain how his alpha saliva could help better. He coated his fingers in it and massaged the boy's chest. Will let

himself fall to the bed. Hannibal didn't understand it until he saw the boy debauched look.W:"It feels so good but the saliva dry quickly. Wouldn't it be easier if you lick my tits?". Hannibal got an instant hard on. He nodded . after all it sounded rational. He leaned over the

boy's chest and instead of licking as Will had asked he closed his eyes and started sucking on the gorgeous omega's breasts. the older man covered the boy with his body. Will soft moans were driving the alpha insane. They kept doing that for half an hour. Hannibal let him go after

the boy told him it no longer itched. Hannibal jerk off and came in record time. He could smelled the omega's cum from beyond the door. He sighed. the next night Will got down on the doctor's bed and told him the cramps were getting worse and the itching had returned. Hannibal abandoned all

professional excuses. the omegas needed him and he couldn't deny him anything. He undressed the boy and sucked his member until Will came. the cramps ceased but Will had lied about the itching. He did want to feel the alpha's tongue on him again.

Will got on the older man's lap and took his small tits in hands. Hannibal noticed they looked healed but dived in anyway. He sucked and licked until Will was hard again. The alpha took the small member in hand . His mouth left Will's succulent nipples to lick his neck. they

looked at each other's lips for a moment and their mouths clashed. Hannibal put Will on the bed and got rid of his clothes while they still kissed. Will was gasping in need. feeling for the first time another person touching him so intimately. Hannibal aligned his member with the

boy's virginal entrance and pushed. He kissed Will to contain his moans while his cock breached his rim until he was completely inside of the warm channel. Will's legs surrounded the alpha's waist and the latter started to move. they made love slowly and tenderly for they couldn't

make much noise. Hannibal fucked the boy for long minutes until his knot started to catch on the pink wet rim. when he knotted the Omega Will gasped. Hannibal filled him with his seed. Will was masturbating at the same pace the older man fucked him. They came almost at the same

time. when the knot deflated Hannibal cleaned the boy's body and they cuddle and slept together until Will woke up to the roasters songs. He went back to his room before his father could get up. life kept going like that even when the boy heat came. It was Hannibal who sneaked

inside the boy's room then to fuck his omega boy silly. months later Will didnt has a heat. which alarmed the alpha. He examined the boy and told him about the consequences of their acts. he promised to protect him and take responsibility. Days passed. Will started gaining weight

he looked more curvy even his small tits were a bit fuller than before. Hannibal asked for his hand to the beta father who was shocked at first but accepted after a long conversation. Hannibal took Will with him to the city. they married there and came back months later to do it

again at the small town. Hannibal had made enough money to buy a nice home and a car. He traveled between the town and the city. Will was happy to stay near his father and his neighbors. That's when little Adam was born. Gorgeous as his mother . Hannibal sometimes called him "his star".💜

Talented hands. He would give a new life to the gloomy grounds that surrounded the majestic home of one Count Lecter. He has yet to see the man's face. His dad was happy after the meeting with his new boss. Will could be able to keep studying at the local school. No need to help

His father with the massive gardens. One night. a week later he was reading some books just before dinner. Suddenly a knock on his door startled him. The boy got up from the small table next to the window and opened the door to a handsome older man.

-"Evening. You must be Will. A pleasure to meet you..dear boy".Will could feel goosebumps running down his legs. His body reacting for the first time to an alpha.-"oh..of..of course. Nice..nice to meet you, my Lord. Please come in". The man smirked to the invitation and entered.

Will failed to notice the count had a silver tray on his hands. The boy blushed at the man bringing dinner to his door. They took seats at the small round table and ate in silence for a while until the count broke the silence and started small talking

Will relaxed bit by bit. The man talked to him like any other person. added to the unexpexted wine they shared made Will feel more at ease around such a gentleman. After dinner Hannibal ,as he asked to be called by Will, told him to let the tray to be taken by the servants on

Morning.-"Good night. Count. I mean..Hannibal". The man smiled warmly at him. Will blushed. A hand on his cheek startled him.then it was Hannibal's soft lips again his. The boy was frozen on the spot. It was a mere carress. no preassure at all.

His legs. The alpha smelled it and growled but relented and let go. The man kissed him soflty and wished him a good night. Will masturbated again that night. Hannibal was getting impatient. He watched the boy pleasuring himself from the balcony. The window was closed and the

Curtains half opened. His fangs tingling at the delicious smell of the boy's slick and the sound of his beating heart. The blood singing tru his veins .and maybe the face of the count in the beautiful omega's mind while his hands touch himself. The vampire turned into a bat and

Flew away.he was hungry. He would need to hunt tonight. Next morning Will was in bed with a small fever. His dad and the old lady servant thought it was because of the change in seasons and the colder nights. Betas wouldn't smell it. Hannibal smelled and impending heat.

The night came and Will opened his eyes to a cold cloth cleaning his face and neck. It was Hannibal. The boy smiled at him. The man asked him if he could eat something. Will nodded. He handfeeded him soup and bread. Will was feeling a bit better with alpha by his side. Will lay

Down again and closed his eyes. Hannibal enjoyed the sight of a blush down his cheeks to his neck. Will was breathing slowly.Hannibal's cold hand touched his neck. His finger unleashed the nightgown. He wanted to bite to take to taste. But he would wait until Will felt better

His finger found a perky nipple. Carressing the boy's chest with a hand. his eyes roaming the expanse of the tempting skin until they met the omega blue ones. Will was watching him. Maybe halfasleep.-"dont stop..touch me more". Hannibal yanked on the boy's clothes ripping them.

Hannibal sucked on the omega's nipples. Will was trembling in pleasure. The sheets were getting soaked by his slick. Hannibal's eyes were shinning red. His fangs out. He bit. Will whimpered. The vampire saliva numbing the pain. The older man drank from the gorgeous omega nipple

A few seconds later he rose on his knees. Opened his pants . his impressive member up in atention. Fangs red with blood he kissed the boy. Will kissed back feeling desperate. Hannibal shred to pieces the nightgown while he aligned his member with the omega's virginal entrance

Will screamed . His wet hole was breached for the first time. Hannibal bit his neck this time and drink his blood while he fucked the poor boy. He didnt drank too much before claiming Will's mouth in a passionate kiss. The alpha knot was hitting against the pink rim. Will gasped

The alpha name as he felt the knot breaching him and then expanding inside. He came at that moment. Hannibal growled and a cold liquid fill the boy's insides. Will was about to pass out when he saw Hannibal biting his own tongue with incredible long fangs. Hannibal kissed him

Will woke up next morning feeling perfectly fine. He thought to himself "what a weird dream". While he bathe he look for marks in his neck and nipples. There were tiny puncture marks on his right nipple. But his neck was inmaculate. That night he was waiting at the door walking

In circles. He needed to know. Hannibal entered without knocking this time making Will gasped in surprise. Now the vampire could come anytime he wanted since he had claimed the boy for himself. He smiled and his fangs shone under the lamps light. -"My Will..". Will blinked and

They were on the bed ..naked already.-"Ha..Hannibal". The man kissed him. Will forgot about his worries. It was intoxicating. They made love again. This time Will was on his knees and the vampire licked a fresh wound on the boy's shoulder. His fingers deep inside the warm body.

His cold fingers left the warm entrance to be replaced by his member. He fucked the boy with abandon. Eliciting sweet sounds from Will's mouth.Will came just as the knot inflated inside of him. Hannibal filled him . His long nails growing as his fangs pierced the omega's neck for

A second time. It was early morning when Will woke up in the darkness feeling thristy. He could look perfectly fine at the man on his bed. Hannibal red eyes looked back at him. Will's eyes were bright neon blue. It was pitch dark and he could see like it was daylight.-"what ..did

You ...?". Hannibal smiled. "I gave you a bit of my blood. I marked you. You are now my bride, dear Will..". The vampire kissed him again. Will felt like he was under a spell. The alpha entered him again and fucked him until he knotted his omega. Will moaned and thought to

Himself "what will be of me now that i am a vampire bride?". He got lost in pleasure once again just as everynight from then on...💜

Spacedogs AU. Job add

Chapter Summary

I honestly had forgotten about this threat..

#spacedogs AU.

Adam found the add on the paper that morning. Its been 2 weeks since he was fired from his last job. He was perusing the newspaper in search of a new one when he stumbled upon the curious add. He called the number and was told to send 2 pictures. A fullbody one

An one of his face. He thought it wasnt that weird of an add considering it was a position as waiter for a night club. The man, Darko. Had told him to meet with the club owner tomorrow evening. Adam thought it would be a temporary position until he could find a suitable job

next day he got there early. There Were no clients but many girls in different states of undress. Some looked like dancers and some like waitresses in bunny customes. He felt a bit anxious when a man's voice called his name. "Mr. Raki?. My name is Nigel. come to my office. This way". Adam nodded and followed the man

The interview went as any Adam had been before. Nigel seemed nice enough to be around and asked direct questions until..."pardon my question but are you in the spectrum, Adam?"."Y-yes." Adam was thinking that would be the end. They wouldnt want someone like him. It wouldnt be the
First time."mmm. Ok. You will attend the purple tables on the private areas. I will introduced you to our clients and make fucking sure noone touches you, gorgeous."."my name is Adam not gorgeous". Nigel smiled "we dont call our workers by their real names"

Adam changed into the bunny uniform.Nigel introduced him as "his gorgeous" and tho at first it was odd Adam got used to the fleeting possesive touches from Nigel while infront of the clients. The week went by. Adam became to like the feel of his boss's big hands carressing his

Legs and buttcheeks. Other times when there was noone around Nigel would chat with Adam. He liked to hear about space. His big hand touching soflty the outline of his uniform. His fingers brushing against Adam's nipples while adjusting the bunny suit. Adam knew Nigel didnt touch

The other staff. It made him feel confused because he knew it was to show the clients that he was "out of the menu" as the other dancers had told him and maybe just maybe the older

man liked him. Adam masturbated to that thought every morning. He gasped when a finger brushed

A nipple under his uniform. Nigel eyes went black before he whispered if it was ok to kiss him. Adam whispered back that they were in the line of view of everyone. Nigel took his hand and lead them to his office. "Adam gorgeous.can i fucking..touch you?And kiss you. ...fuck".

"Yes. Please". Nigel kissed him at that moment. His hands roaming the expanse of Adam's back. Kneading his butt and roaming up to his chest where he pushed down the heartshape bust part of the uniform. His hands carressed the perky nipples making Adam moaned in the kiss.He could feel Nigel's member

Hard against his leg.Nigel kept kissing his lips. Then he went down his neck licking and sucking leaving marks until he captured a nipple in his mouth. Adam whimpered.Nigel lift him by his legs and started sucking. Adam's legs circled the club owner's waist. He moaned "Nigel".

Half an hour later another waitress was attending Adam's clients while muffled moans could be heard coming from the boss's small office. Adam'd head softly hit the wall while he moaned. Nigel lubricated fingers were opening him. Adam was naked but for the fishnets on his legs

Down to mid thigh. Nigel had been dreaming with this moment for the last weeks . since he met Adam he wanted the boy for himself. Now he had him in his arms and would sink into that delicious body. Adam breath got caught as Nigel's member finally breached him

Nigel started to thrust into him . His fingers leaving marks on the younger man's skin. Nigel was growling as he scent Adam's neck. The latter nails sinking on Nigel's shoulders.

The carriage followed the path at a slow pace. Nigel looked out at the afternoon sky. It was going to get dark soon. He sighed and turned to his right hand and friend of years, Darko: "Since how long has he been following us?".

Darko answered with a bit of concern in his voice: "since yesterday morning. My Lord, you shouldnt..". Nigel grumbled:"i know. They smell too ripe. Too young for my tastes.but someone else could. Lets camp and see if they approach us". "Yes my Lord", answered the other alpha.

It was late at night when Nigel catched the scent in the air. This omega must be really young to be this ripe and sweet. The campfire was a few meters away from the carriage where the Lord slept in. Darko was feigning to be asleep. Both alphas were alert. No one was supposed to know the Lord wereabounts.

Without opening his eyes Darko grabbed his weapon from under the furs that were his provisonal bed next to the fire. Nigel smiled but kept his eyes shut. A small shadow opened the door in silence. Nigel's eyes open at once and in a swift motion the shadow fell to the floor

With the alpha's bigger frame over it. Nigel hummed and held the boy's hands above his head. It was a boy. An omega. An a beautiful one at that."who are you and why are you following me?" Asked the man while growling for a bit of a show.The boy was unperturbed."Adam. And you are my alpha"

"Oh. Am i , little omega?". Said Nigel while smirking and pushing his weight over the boy. He was a bit curious and scented the omega's neck. "I wouldnt mind a bit of fun but i am

afraid you are too young for me..Adam", purred the alpha. Adam blushed and gasped at the man's

Motions. He could feel himself getting hard and mewled. Nigel eyes flashed in interest."you want this, boy?. Curious. You smell virgin.". Adam gasped at the man exploring hand carresing his ribs."I told you. You are my alpha". "And how do you know, little star?" Nigel's mouth brushed the boy's neck

Adam gasped and lift his hips searching for a bit if friction. Nigel chuckled "Not now. First, you must eat something. You are too thin and i am sure you haven't sleep at all these past 2 days, am i right?". Adam looked afronted but accepted the man's hand helping him up. They got out of the carriage. Darko was up roasting meat and warming bread.

"For a moment i thought i would have to interfere, my Lord. He is just a child". Said Darko while giving the boy a plate with bread and meat and a cup of wine. Adam said as a matter of fact: "I am not a child. I am 17 this summer". Nigel smiled at his friend "see. He is a man already. So Tell me ,Adam.

What was your plan?. Get food and a job with my help or just plain sex and a place under my roof?". Darko almost chocked on his wine. Adam answered calmy:"You're my alpha. I want to be with you and of course i want sex. My body wants it since i saw you". Nigel barked a laugh.

Darko covered his face with both of his hands. Nigel just carressed the boy's hair and took a cup of wine from Darko. Later, after eating and 2 days of walking with no rest for the boy, he was falling asleep against Nigel's shoulder. Both alphas had nodded in silent agreement after hearing the

Boy's story. His parents had died from fever 3 days ago. He was about to get under the care of an uncle who had insinuated himself to the boy no later that their parents deaths a day ago. So the boy packed his things and by luck saw Nigel entering a restaurant. He stalked him for a

Day. Following his intoxicating scent through the whole town. The alpha's scent called to him. So he started following them. Back at the present, Nigel carried him in his arms to the carriage and let him sleep on the comfortable seats while he thought about what to do with him.

Come morning Adam woke up to the alpha's scent surrounding him. The boy was purring before opening his eyes. Nigel smiled. The boy was so cute and his eyes mermerizing.

Adam's head was on the alpha's lap. Covers of soft fabrics protected his body from the cold of the early morning hours

"Good morning, alpha", whispered the boy. Nigel could feel his resolve breaking. This omega and his voice.. He sighed and said "Are you hungry?". Adam shook his head. He moved to sit on the alpha's lap and cuddled with him. His nose against the man's neck. Nigel let out a low

Growl. His pants getting tigh at the daring boy. They travelled like that for 2 days more and bought provisions. Adam wouldn't let Nigel's side but helped in anything he could. Drako felt uneasy. He hoped he wouldnt be another fleeting affair to his Lord. On the 5th day of travel Nigel got

A bit of a fever. Darko sighed tiredly. They were at 7 days from their destination. This was just a sign that the boy was right all along. He decided to camp for a day or 2 until the flash rut ended. He wouldnt interfiere. Nigel didn't pay him enough. That night nigel's breath

Was irregular. Adam put wet cold towels on his forehead and gave him water and bits of fruits and bread with cheese so he wouldnt starved. Nigel hold Adam by his biceps and growled. His eyes of a bright red. Adam trembled in fear and something more. Something else.

Nigel quick hands undressed him brutally. Adam flinched but stood still.the man growled "sit". Adam obeyed and sat on his lap. The man freed his alphan member. Adam gasped at the man's mouth on his neck. Nigel sucked marks all over the boy's neck and nipples. His

Big hands gropping the boy's butt and legs while he nibbled on the omegan mating gland. Adam melt on his hands. Unable to move by the pleasure that shot throught his body. He was getting the man's pants wet. There was no going back.Nigel was in rut. A rut induced by his true mate

Nigel lift the boy by his hips. Adam whined when the alpha's member breached him. All rational thoughts left his mind.Nigel hungry kisses distracted him from the brutal pace of their lovemaking. Adam lost count of how many times they both came.The alpha's member never leaving his body filling him again and again

Adam came once again with a shout when the alpha's knot finally breached his wet and abused entrance. Nigel growls turned into purring while he left yet another mark on the boy's reddened nipples
After a whole day, Nigel recovered from his fever and rational thinking was possible for him. Adam was a mess of marks and cum all over his naked body. Debauched and lovely under the older man's body.

They cleaned themselves and their clothes in a nearby river. Darko said nothing
And they ate and continued on they way to the Lord's winter lands. They were going to his winter residence. On the way, Nigel and Adam made love many times but during the last one the alpha bit into the omega's mating gland. Their bond was made a reality. Darko was grumpy for a couple of days

Years later...

"What are you doing ,my star?". Adam smiled from the balcony. "stargazing, Alpha. Will you come with me to the conference tomorrow?". Nigel hug Adam from behind. His little star loved to attend conferences and such about planetary themes he couldn't care less."of

Course, my star. I got some bussiness to attend to over there". Nigel kissed his husband before taking him in his arms. Adam giggled. The night was young but they would be in each others arms for hours before sleep came to them. 💜

Chapter Summary

The mist is based in the film "The Others "

Ghost Hannigram AU.
Will couldnt remember how much time had passed since he got lost . It looked like an abandoned property .tho some rooms of the mannor were claimed by flora the place was gorgeous. He put his dachel aside and sit on an old armchair. He needed to rest.

He looked at the hole in the ceiling where plants were growing down the walls and he blinked. He heard a sound and opened his eyes to a man dressed in victorian formal clothes. The man smiled at him while preparing a cup of tea. The older man added some sugar to the cup. There was a plate of biscuits
Too.Everything on a table Will didn't remember being there before. -"Good evening, young master. Did you have a good nap?.i took the liberty of make some tea.". -"Um..hi. I dont know if i sleep at all in all honestly. Is that for me?". The older man just smiled and nodded.

They both drank tea and ate some biscuits before Will felt the need to explained his presence in the manor. He guessed the man was a servant in a nerby property part of this one. "Im just passing by. I was with my brigade and lost my way sometime in the night.".
"You may rest here as long as you want.". Will smiled akwardly. He didn't want to be a bother. The man kept talking sofly "i am sure your brigade will be coming soon.This is a good place to hide from the enemy and rest for a while".Will didn't questioned that line of thought.He was

Comfortable for the first time in a long while. "My name is Hannibal. I am in charge of this manor as well as the other houses around it". Will didn't recalled other houses before coming to this place. There was something strange about this man.

Early next morning Will searched the area . He always collided with a wall of mist that surrounded the property for miles. He was really anxious. He went back to the parlor of the manor. No use in going to the other rooms since they were in a worse state.
Hannibal came every morning. Will was so used to sleep on the wild that he didn't feel the cold at night. He spent his nights writing on his journal notebook and sleeping. In those long hours he missed his conversations with Hannibal. One morning he told the man about the mist

The older man said "it is common this time of the year. I suggest you stay here until the end of the month. If you like i can relocated you to one of the chambers in the manor i reside. It is in very good condition and would be to your liking.A warm bed would be better than that"

Both men looked at the old moth-eaten armchair where Will had sleep for the last nights. They both giggled and Will accepted Hannibal's offer."All right. Anything would be better at this point. My neck can't take it anymore". Hannibal smiled tenderly. Will blushed under such

Attention. He remembered his old mate. A quiet soldier called Peter who had kissed him one night . He had kissed him back in need of a distraction from the horrors of war. touchstarved as he was they kissed and act as nothing had happened next day. That was almost a month ago.

Hannibal took him to the new location after tea and a dinner of pastries with a delicious custard. They went and walked for a couple of minutes in silence. Will looked at the sunset in amazement. It was beautiful. Hannibal's voice brought him out of his musings. "We are here" . In front of them

Was a small country house. Will didnt knew how he had missed such a place in his search for the limits of the property days before. It was a cozy home. The fireplace was in use.A bowl of soup was already over the table. Mouthwatering smells coming from it and tormenting the

Young soldier. They ate and Hannibal lead him to a bathtub filled with warm water. The house was so small hannibal could see him any moment . Will undressed and got inside. He felt Instant relief as his body relaxed into the aromatic waters. Hannibal seemed to read a book by the fireplace

After a much nedded scrub Will got out and dressed in clean clothes lend by the older man. There was only a bed. He blushed as both men got under the sheets in silence. For long minutes they looked at each other's faces. Will didnt knew what to do. This was unusual even for him

Who had shared space with many men during showers or sleeping on the ground with them at close quarters. Will was lost in his mind for a while when he noticed movement. Hannibal was getting closer. "Will..are you alright?"

Will gasped at his proximity."ye-yes. I am ok. Just lost in thou-mm..". Hannibal was kissing him. Will hands went ot his biceps and used his force to turned them on the bed. He was on top. The kiss was cut short thanks to the movement. They looked at each other gasping for air.

Will looked at Hannibal's eyes then his lips. He leaned down and kissed the man. They hug and kept kissing until Hannibal pushed him to be on top once again. This time he started undressing Will as fast as he could. Will kept stealing kisses until they were both naked

Every touch , every kiss was a new experience for the young man who had witnessed so much gore and lost. Every new sensation was a healing touch that erased a memory from the war.Hours later Will was gasping for air hands clung to the older man back with every delicious thrust.

Morning came and Will woke up surrounded by warm arms. He snuggled in Hannibal's arms until he felt a kiss on the top of his head."Good morning, love". Will smiled like the sun. Maybe getting lost was a strike of luck. Maybe finding his brigade wasn't so urgent after all. Maybe

Life could wait another month. It didn't matter at all. He didn't want to leave. Not now that he had finally found rest and love in the same place. "G'morning, Hannibal".

A few meters away a soldier was shoveling the last bit of ground to cover the tumb of a dear friend. Under a big ild tree. Leaves floating in the morning air.
His commander said to him in a sad soft voice "Come on, Peter. It's time to move if we wanna kick the road on time before sunset.""yes Sir..". The young man shed the last of his tears for his beloved friend and whispered to the wind."you gonna love this place. It is full of Trees and flowers. War seems incapable of touching this forgotten place.and..you won't be alone. No lonely tumb at the side of a road. This is better. Good bye, my friend..i..i loved you, Will..". Peter then left with the rest of the soldiers. Two tombstones side by side 💜

Strip club owner omega Will/alpha Nigel

Chapter Summary

Will is a prostute so he fucks some especial clients. But the main pairing is Will/ Nigel

Chapter Notes

I redacted this because it was a series of ideas not a twittfic.

Strip club owner Will/Alpha Nigel/

Will was the omega star of the show at his strip club. He just served certain clients . He danced while undressing for private shows. Patrons paid hundreds to watch him dance. Rich patrons paid even more to watch him get fucked by alpha Nigel in a special crystal cage. Hannibal was a loyal patron. Sometimes he paid for sucking Will's

Nipples through a small window in the cage. Other times he got in and was tied to a chair where Will rode him until the alpha came. Nigel always fucked Will after those times . He was his bodyguard and servant and was irrevocably in love with the omega since they met .Nigel hated when others touched Will. The omega owner knew that and let the man got rid of the scent of others on Will's skin by let him fuck him right after. Will felt at peace that way.

Tonight was special since Hannibal had brough with him Lucas. A distant younger brother. He paid for the priviledge of watching the omega being fuck by Nigel and for Lucas to kiss the omega's lips. After the show Will was tired . He liked the blushing timid alpha his best patron came with. The omega got in Lucas's lap and let him suck his nipples tender and made out with him for a short while. After that he pecked Hannibal's lips leaving both patrons satisfied.

Nigel carried him bridal style to the private loft at the second floor of the building. The older man bathed him and they had dinner together as usual. Tonight Nigel made a simple dinner since Will was tired .

They chat for a while before going to bed together. They were something like friends with benefits outside their bussiness relationship. Will trusted the alpha with his life. They haven't

exchange confessions but Will knew Nigel was his alpha. It was pretty obvious the man loved him back. They didn't need words for what they knew in their hearts.

Will only performed once a week . Nigel was anxious and jealous because Hannibal had arranged a private session for Lucas and him with Will and was willing to pay handsomely. Will accepted but on one condition: Nigel was to be there with him supporting him and noone was allowed to kiss the omega or knot him except for Nigel . Nigel made Will feel safe and lessen his worries about being with 2 alphas at once.

The day arrived and Nigel sat in boxers
Againts the bedframe. Will was sitting on his lap while the brothers sucked on his supple nipples. Will kissed Nigel when he felt closer to orgasm. After Will came down from his orgasm Lucas gently fucked the omega while Hannibal sucked the omegan member. Will came so many time what with

Both alphas taking turns fucking the omega until they were exhausted. Nigel just looked and kissed Will whenever the omega's lips searched for his. When the brothers left leaving a generous amount of money Nigel cleaned

And massaged the omega's body. At Will's petition he fucked and knotted him until only their mingled scents filled the room. Before Will fell asleep he confessed he loved Nigel. The alpha kissed him saying againsts his lips that he loved him too. and they fell asleep holding each other.💜
